REACH (173) Compliance statement

Metals & Materials Limited (Goodfellow) is the holding company for Goodfellow Cambridge Limited, Goodfellow Corporation, Goodfellow SARL, Goodfellow GmbH and Goodfellow (Shanghai) Trading Co., Ltd.

The latest amendment to European Union Regulation (EU) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) increased the candidates' list of SVHCs to 173, effective as of 12 January 2017 with phased implementation deadlines to 2018. This legislation is now in force.

Goodfellow strongly supports the overall objective of REACH to improve and protect human health and the environment. We are committed to providing our customers with information about the substances in our products in order to comply with all applicable REACH requirements.

We work closely with our suppliers and expect them to understand and comply with REACH, and to ensure that all necessary actions are taken to meet REACH requirements. We require our suppliers to pre-register or register their substances or preparations (if applicable) and to assess whether the products and components, including packaging, supplied to Goodfellow, contain any substances classified as "Substances of Very High Concern" (SVHC) on the Candidate List by the European Chemicals Agency (ECHA), in a concentration of more than 0.1% weight by weight (w/w).
